## NOW APT TO BE PROGRAM

Senator Watson Wants Revenue to

A possible change in republican legislative plans by which new tax laws would be enacted ahead of the new tariff was announced in the Senate yesterday by Senator Watson, republican, Indiana.

In the course of his remarks Senator Watson said:

"I want tax revision legislation to reassure the people as to what their reassure the people as to what their

tax butlen will be. Until capital is employed there will be these existing conditions.

"The ways and means committee of the House has labored for months on tariff revision and in a short time the House will be considering that measure. We all know that the Senate cannot originate revenue measures, but in order to aid the House committee a Senate committee has conducted hearings on revenue revision for its information. This will save time.

"What I would like to see is, after the tariff bill comes to us, and is under consideration in committee, revenue legislation be taken up before we take up the tariff.

"We need tax legislation in the United States far more than we need the tariff bill. The best tariff bill will, in many instances, due to existing world conditions, be obsolete inside of six months."

The senator then detailed a plan for the prompt consideration of revenue revision, which the House is scheduled to report speedly after it has completed tariff legislation. Under his plan the tariff measure could be left in committee to be discussed from the senatorial viewpoint, and, inasmuch as all of the committee work necessary, more than six weeks of hearings having already been conducted in the Senate, the revenue bill could be taken out on the floor and

prevalent when in the midst of Kiwanians.

In the absence of Claude Woodward and George Winslow, who are attending the Cleveland convention of Kiwanis, Mark Lansburgh presided and Irving Hall acted as secretary.

In presenting Senator Heflin, John J. Boobar declared that had the Alabamian been born in another section of the country he had little doubt that some day he would be President.

Prizes for the handsomest and homeliest present at the luncheon went to Senator Heflin and Representative Arthur Free of California on a fifty-fifty basis.

Telegrams from Mr. Woodward, Harry G. Kimball, Roe Fulkerson, Charles Roberts, William Smith and Frank E. Shiery, local Kiwanians at Cleveland, were read.

The board of governors of the club authorized \$100 to be sent to the Pueblo Kiwanis Club.

"This step would give a measure of reassurance to business and re-vive it." he declared. "And I trust this will be the procedure," he added. Senator Watson declared that he was making his remarks because of a belief that the matter of taxation should be disposed of "to revive business and rehabilitate the industry of the nation."

Expressing his approval of this thought, Senator Jones of Washington sought enlightenment on the suggestion put forward yesterday by Senator Penrose that all other legisters of recesses, Congress dispose of the tariff and revenue revision program.

"I am but a meek and humble fol-

of the tariff and representation of the program.

"I am but a meek and humble follower," explained Senator Watson. "I know of no reason why we should not meet other problems."

party want to do a patriotic thing they will take this bill back to the committee and make a real bill and not a pretext out of it. They will either present a bona-fide proposition to the soldiers or they will say, 'We are not in a condition to meet this problem now,' and the latter, in my opinion, is the wise and patrietic course to take."

Senator Borah next analyzed the report of the subcommittee that prepared the bonus bill, and said it showed it would cost anywhere from \$1,500,000,000,000 and that it would not cost the taxpayers anything. He showed that it postpones initial payments to July I, 1922, and promises that the collection of foreign loans will pay the bill.

"Virtually we say we are not willing to pay this now," continued Senator Borah, "and that we are simply pledging posterity to pay it. I object to it, first, because it does not discharge our obligation, and, secondly, because I am utterly opposed to any cash proposition of any kind.

"This bill is utterly unjust to the soldier, upjust to the taxpayer and discreditable to the United States Senate."
